Material girl

Studio Bon Textiles creator (and Emily Summers alum) **BONNEE SHARP** first made the pages of *FD Luxe* in January 2009. Since then, the Dallas designer's hand-screened, pop-patterned fabrics have been picked up nationally by revered F. Schumacher & Co.

Sharp has nine new prints due out this month. Her creations range from spiky florals and hand-sketched "Oodles" to preppy graphics, all hand-screened in the U.S. on pure cotton or linen. See the full line at studiobontextiles.com or shop in person at Schumacher Dallas. The to-the-trade showroom makes an exception to sell Sharp's line to the public.

What's next? The "crazy busy" designer says international distribution is in the works. Hmm, do we see a pattern here?
